Washington Regional Transplant Community

# Legacy of Heroes

Sunday, September 27, 2015

Deer Memorial Dedication

THE GEORGE WASHINGTON  
UNIVERSITY HOSPITAL

**WRTC**  
WASHINGTON REGIONAL  
TRANSPLANT COMMUNITY

## Legacy of Heroes Donor Memorial

*The Legacy of Heroes Donor Memorial is a beautifully sculpted tree, commissioned with love and respect by The George Washington University Hospital and Washington Regional Transplant Community. Its purpose is to honor the legacy of those who have died and given the gift of life through organ, eye and tissue donation at The George Washington University Hospital.*

*Each leaf represents an individual who donated precious gifts so that others may live.*

*While the vast majority of patients at The George Washington University Hospital return home as the result of extraordinary care, the few who cannot be saved and who donate organs and tissues are forever remembered as heroes.*

### Welcome

Barry A. Wolfman, CEO/Managing Director  
The George Washington University Hospital

### Opening Remarks

Lori E. Brigham, President & CEO  
Washington Regional Transplant Community

### Message from a Donor Father

Rabbi Richard Agler
